

Dear Friends of PGC;

I hope this email finds you well. I have spent the last few weeks hunting weeds in my garden and am pleased to say that this is the best one I have ever had. I had put off processing memberships until a rainy day, which as you know we had not had until today. Lucky for my garden, and all of you waiting for your cards in the mail, the day has come to get them done. All cards which I have paperwork for are done and will be in the mail Monday morning. If renewing has slipped your mind, you know where to find me.

Due to a special training being held at the gun club, the club grounds will be closed Thursday July 2nd starting at 3:00 pm and for the remainder of the day. We appreciate your understanding.

I have a few housekeeping things to address:

Signing in: We have always requested that members coming up to shoot sign in. Many of you already do this, yet based on the number of shooters who show up on our surveillance cameras, it is clear that others are not signing in. If this has been your routine, I thank you. I have put new books out, one under the shooting pavilion for gun shooters, and one under the overhang on top of the woodpile for archers. It takes just a few seconds and it allows us to monitor high use times etc.

With the clubhouse currently still closed, I am asking all of you to help us all get in the habit of this. If you see someone come, as a member I encourage you to ask them if they remembered to sign in. Soon it will be second nature to everyone.

New Target: Thank you to David Bishop for building, and Kevin Heath for helping to set up the new pistol target. This is set up in a way that board can be changed when needed. But PLEASE help us extend the life of this target board by NOT SHOOTING BIRD SHOT OR SHOTGUNS AT IT!. I also request that you do not shoot at the supports on purpose, I mean I know there are days with my handguns when I can't hit the broad side of the barn, but please attempt to shoot at the board and not the supports.

OTHER NAGS: We have had a lot of people shooting at anything that is not nailed down, and even things that are lately. I do not believe that this is a reflection on our member population, but it must be addressed, and I need your help as members to keep an eye on the club grounds. If you see someone shooting at things that should not be shot at, please make a note of the date and time and any description of vehicle etc and let us know. We do not want you to confront them, but just let us know what you have seen. We will investigate the security cameras footage and try to address the problem. There has been an increase in the trap house being shot at, the target stands, trash barrels, you name it. This is not how we as responsible gun owners want to be seen, and it only takes one bad apple to spoil the bunch. Thank you so much for your help in keeping the PGC the great place that it is.

Congratulations!: I wanted to take a quick second to congratulate one of our future members. Little Carly participated in a Virtual fishing derby where kids could fish in any regional area and submit a photo. She was the winner with this rainbow she caught in the pond at the club. Don't forget fish are in both ponds this year.

Please as always don't hesitate to reach out to me with any questions or concerns, and don't forget that the July general membership meeting has been cancelled.

Stay healthy everyone!
